Marketing Performance Overview (2025)

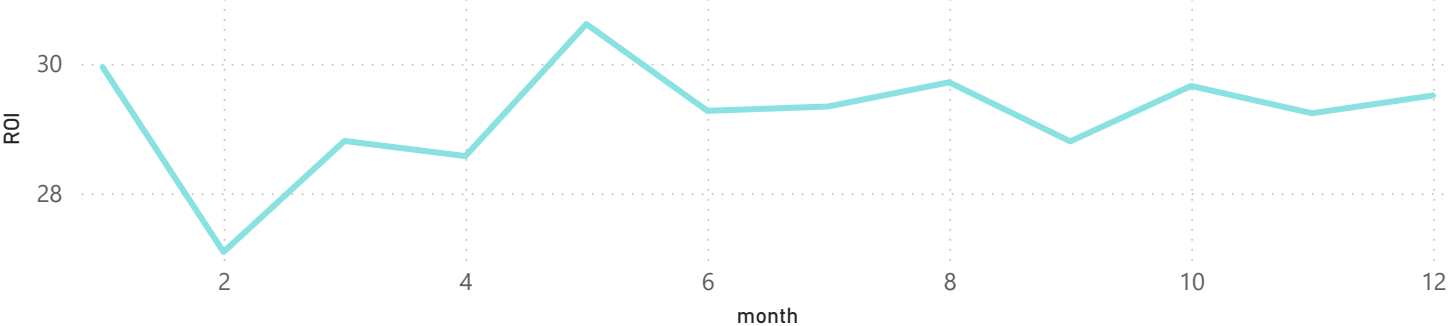

Return on Ad Spend by Channel

Campaign Spend Distribution

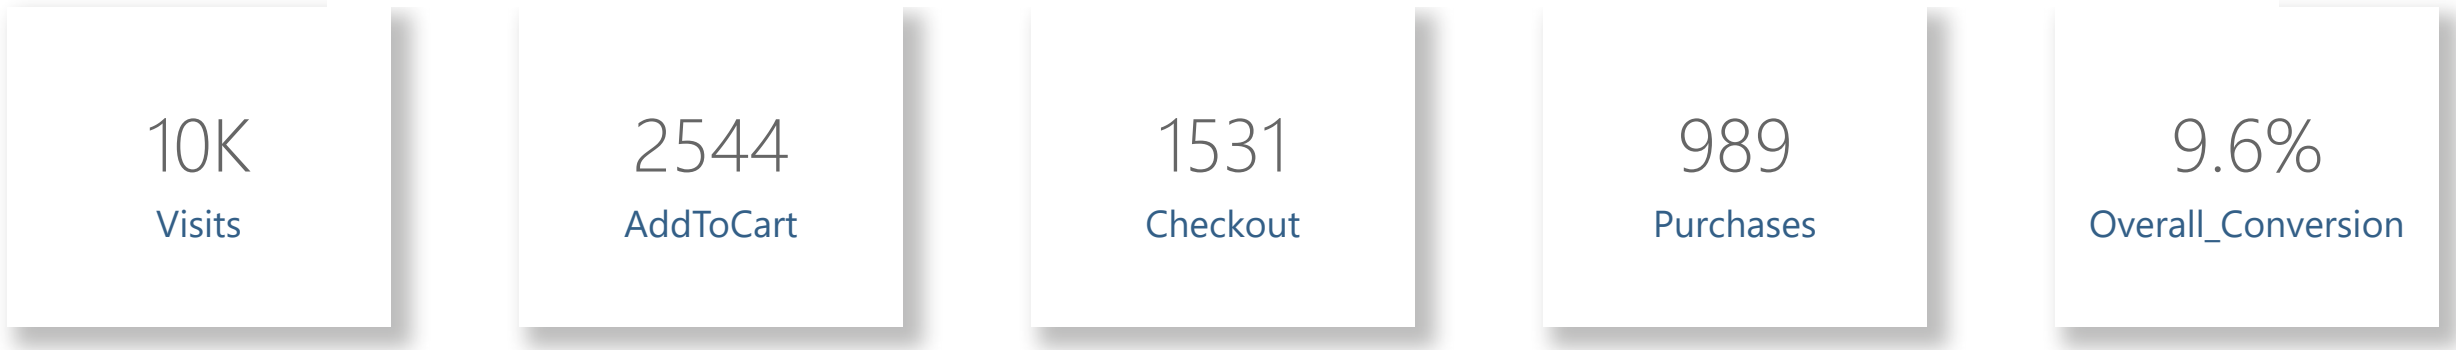

Monthly ROI Trend

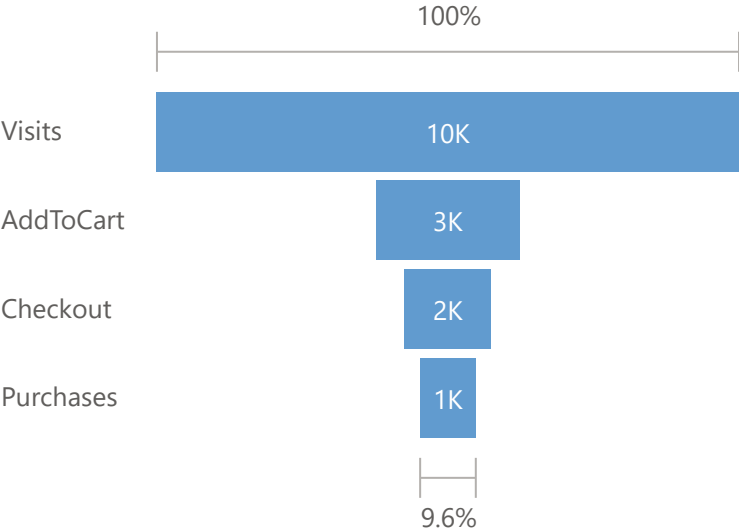

Insights:

- Organic Search and Paid Search deliver the highest ROAS, showing strong efficiency compared to other channels.
- Q2 campaigns show balanced spend distribution, with several channels achieving similar ROAS levels.
- Marketing ROI remains stable month-over-month, with small seasonal peaks around mid-year.

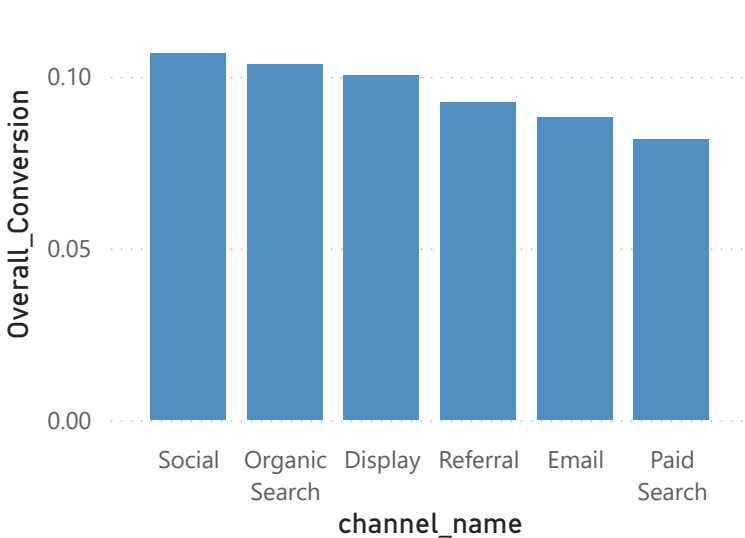

Conversion Funnel & Behavior Insights (2025)

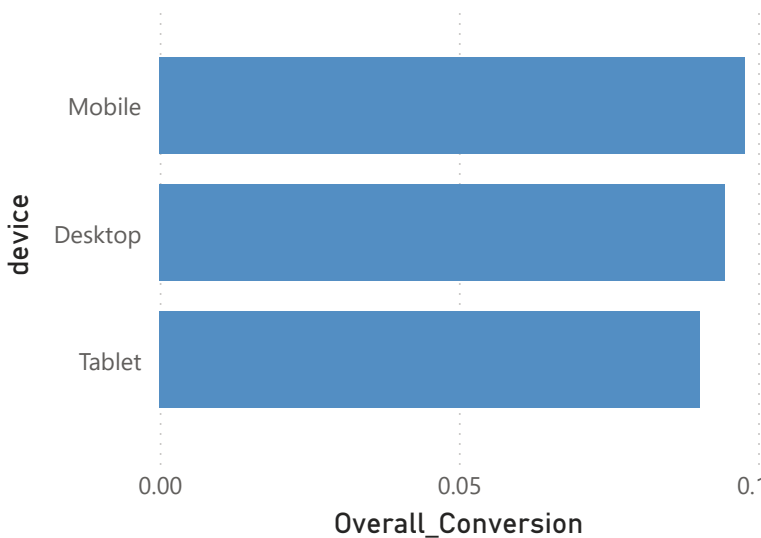

FunnelValue by Step

Overall_Conversion by channel_name

Overall_Conversion by device

Insights

- The overall conversion rate is 9.6%, meaning roughly 1 in 10 visitors completes a purchase.
- Social and Organic Search channels show the highest conversion efficiency (~10%), while Paid Search and Email underperform slightly.
- Mobile users contribute strongly to total conversions, performing on par with desktop visitors.
- Major drop-off occurs from Visits → Add to Cart (~75% loss), suggesting opportunities to improve product page engagement or cart visibility.
- Checkout-to-purchase completion (~65%) indicates that once users reach checkout, they are highly likely to buy.

Top City Revenue

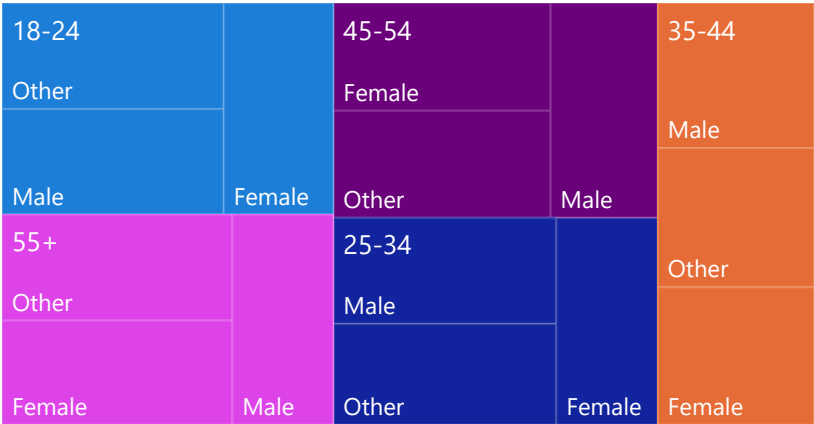

Revenue by city

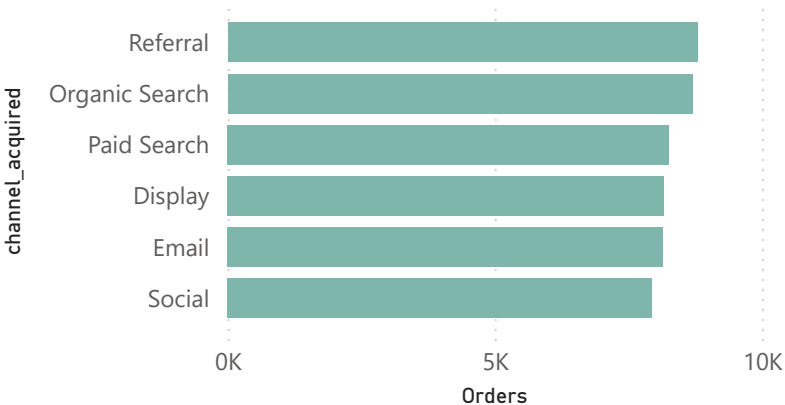

Insights:

- The customer base consists of 5,000 active buyers, generating over \$15.6M in total revenue.
- Returning customers make up the majority, showing a strong loyalty and retention rate.
- Average Order Value (AOV) remains high at \$312, indicating stable purchasing power.
- The 25-34 and 35-44 age bands contribute the largest share of revenue, with female shoppers slightly outperforming males.
- Referral, Social, and Organic Search are the top acquisition channels by order volume, reinforcing the value of word-of-mouth and inbound marketing.
- Major metro cities such as New York, Dallas, and San Francisco dominate sales, collectively accounting for the bulk of revenue.
